## Remanufactured Calipers - the *ROADLINK* way...

**ROADLINK Inspects** each stripped and cleaned component, re-using only those which meet our stringent quality standards. All old seals and all damaged or worn components are replaced with OE quality new ones.

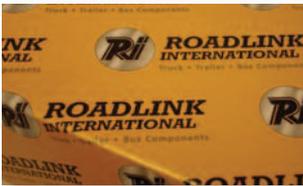

**ROADLINK Rebuilds** each caliper assembly carefully and professionally in a clean environment, using new pistons, seals, boots, bleed nipples and slide pins - every time.

**ROADLINK Tests** every caliper after reassembly on a specially developed test bench, which simulates actual brake application. In the unlikely event of a caliper not being to specification, it is completely re-processed.

**ROADLINK Guarantees** every one of its professionally remanufactured calipers for 12 months. The body of each assembly is hard marked with a unique code for full traceability.

**ROADLINK Presents** a comprehensive all-makes range of top quality remanufactured CV calipers. Every caliper is securely packed in a robust carton for total protection, with full fitting instructions included.

**Also available- genuine new calipers by BREMBO, BOSCH, WABCO, MERITOR, KNORR BREMSE and HALDEX**

**ROADLINK Remanufactured CV Brake Calipers - insist on the yellow box-your guarantee of total quality.**
